Roofing

We provide high-quality, genuine COLORSTEEL® and Marley products for your home's roof. Both are trusted to perform in New Zealand's challenging conditions and are backed by industry-leading warranties, giving you confidence your home will stand the test of time.

Roofing Profile

Roofing profiles are supplied by Roofing Industries, a 100% New Zealand owned and operated company that takes pride in manufacturing and supplying a wide range of residential roofing systems that are innovative, tested, and designed to withstand New Zealand's challenging climatic conditions. Roofing Industries uses quality, locally manufactured raw materials to ensure a superior product.

STANDARD

Corrugate

A timeless roofing choice that is durable, cost-effective, and built to last in NZ conditions.

- Iconic profile that stands the test of time
- Proven performance in our climate
- Backed by local expertise and full technical support

5 Rib

A modern roofing choice with clean lines and bold shadowing that is engineered for durability and performance in NZ conditions.

- Contemporary look with refined geometric lines that add visual depth
- Works efficiently even at low roof pitches
- Built to last with proven technical performance
- Backed by local expertise and full technical support

UPGRADES

True Oak Corrugate

A stronger roofing choice with bold, rounded curves and timeless character that is designed for durability and performance in NZ conditions.

- Strongest corrugate profile available for superior strength
- Deep shadow lines create classic, distinctive styling
- Performs well even at low roof pitches
- Backed by local expertise and full technical support

- Designed for long-lasting performance in all conditions

Brick

BRICKWORKS

Clay bricks are one of the world's oldest and most trusted sustainable building materials. They offer enduring strength and longevity, along with excellent thermal insulation that keeps your home cool in summer, warm in winter, and significantly reduces energy bills. Bricks also deliver a unique, natural aesthetic with low maintenance, fire resistance, and eco-friendly benefits — making them an excellent long-term investment for your home.

Kitchen

We know the kitchen is one of the most important spaces in your new home, and there's no shortage of design choices to make. Each of our kitchen plans is professionally designed and ready to go, but if you'd like something more personal, you can create a design entirely your own with the help of a specialist kitchen designer.

PETER HAY KITCHENS

Kitchen Cabinetry

Founded in 1973 in the heart of Auckland, Peter Hay Kitchens is one of the oldest and best-known kitchen brands in New Zealand. For more than 50 years, Peter Hay has continued to bring “affordable style”, transforming kitchens from humble backrooms into open plan “heart of the home” living spaces. Their successful history has included many significant achievements, Trusted Brand Awards, The Best Of Best Awards and likely the most significant achievement, the successful install of a world-first production line in 2016 helping them keep up with the capacity of kitchens they produce.

What else is included

In addition to the choices on the previous pages, your home includes the following as standard.

PLANS, CONSENTS & DOCUMENTATION

- ✓ Permit plans
  Plans through council with building consent (council fees not included)

STRUCTURE & FRAMING

- ✓ Building Wrap
  Thermakraft® building wrap and tapes installed to all exterior walls
  A high-performance breather membrane that provides a critical secondary weather barrier, reducing air infiltration and improving the thermal performance of the wall system
- ✓ Wall Framing
  H1.2 treated all wall framing timber fitted and fixed as per council plans, including pre-nailed frames, 3604 technical standard
- ✓ Roof Trusses
  H1.2 treated, engineer-designed, gang-nailed roof trusses to suit plan and site requirements, 3604 technical standard
- ✓ Extra timber
  Beams, rafters, purlins, roof and soffit framing and timber ceiling battens
  (Rondo can be supplied at an extra cost)

INSULATION

- ✓ Ceiling Insulation
  Pink® Superbatts® R7.0 ceiling insulation
  High-performance Pink® Superbatts® deliver an R7.0 rating, exceeding the NZ Building Code minimum for most climate zones to keep your home warm in winter and cool in summer
- ✓ Wall Insulation
  Pink® Batts® Ultra® R2.6 wall insulation
  Pink® Batts® Ultra® provide a proven R2.6 thermal and acoustic barrier in all exterior walls, helping maintain a comfortable interior temperature year-round

ROOFING

- ✓ Roof Underlay, Screws & Flashings
  Covertek 215 self-supporting roof underlay, roofing screws, and all flashings and barge caps
- ✓ Soffits
  Fibre-cement soffit/eaves linings

WINDOWS AND DOORS

- ✓ Door Handles & Locks
  Kanso colour-matched exterior handle and lock set

INTERIOR LININGS

- ✓ Ceilings
  GIB® 10mm standard plasterboard
- ✓ Internal Walls
  GIB® 10mm standard plasterboard
- ✓ GIB Aqualine® (Wet Areas)
  GIB Aqualine® water-resistant linings to bathrooms
  GIB Aqualine® features a water-resistant core that resists steam and moisture penetration. It is New Zealand's number-one tiling substrate and its fibreglass-reinforced core provides excellent strength and stability behind tiles
- ✓ GIB Braceline® (Structural Bracing)
  GIB Braceline® bracing sheets installed where specified on plans
  GIB Braceline® is a high-performance bracing plasterboard for light timber-framed buildings. It provides effective wall bracing while also reducing sound transmission between rooms

INTERIOR FINISHES

- ✓ Skirting Boards
  60 x 10mm pine skirting boards
- ✓ Scotia
  55mm Gib Cove classic
- ✓ Architraves
  40mm x 10mm pine architraves to all door and window openings

KITCHEN

- ✓ Cutlery Tray
  In-drawer cutlery tray insert. White colour

What's not included

PLANS, CONSENTS & DOCUMENTATION

- × Resource consent
  Resource consent applications and associated fees if required for your site (e.g., for non-complying activities or district plan rules)
- × Consents
  On site consent for site and services
- × Geotechnical / site-specific engineering
  Site-specific geotechnical investigation, soil testing, or specialist engineering reports. Site investigations, consents, reports
- × Survey & title fees
  Land surveys, title searches, or legal fees related to the property

INTERIOR FINISHES

- × Hanging rods and internal shelving to wardrobes

FURNITURE & DÉCOR

- × Window treatments
  Curtains, blinds, shutters, and associated tracks or hardware
- × Furniture
  All furniture including beds, sofas, tables, chairs, and storage units unless otherwise stated as an inclusion
- × Soft furnishings & décor
  Cushions, rugs, artwork, mirrors (beyond the standard bathroom mirror), and all decorative items

APPLIANCES

- × Refrigerator / freezer
  Fridge and freezer are not supplied
- × Washing machine & dryer
  Laundry appliances are not supplied
- × Dishwasher
  Dishwasher appliance is not supplied
- × Microwave
  Microwave oven is not supplied

PLUMBING & ELECTRICAL

- × Mains power connection
  Connection of the home to the mains electrical supply from the boundary or meter box. The home is wired and ready for connection; the line connection itself is the customer's responsibility
- × Water supply connection
  Connection to mains water supply, water tank, or pump system from the boundary to the home
- × Wastewater & sewage connection
  Connection to mains sewage, septic tank, or effluent disposal system. Including any septic tank design, supply, and installation
- × Stormwater connection
  Stormwater drainage from downpipes to an approved disposal point
- × Gas supply connection
  LPG bottle/cylinder supply and regulator, or natural gas connection from the boundary. The home is plumbed and ready; gas supply is the customer's responsibility
- × Internet, phone & fibre
  Any broadband, fibre, phone line, or Sky TV connection and associated installation fees

SITE & LAND PREPARATION

- × Site visits
  Physical site visits
- × Site earthworks & levelling
  Clearing, levelling, or grading of the land prior to or following installation
- × Foundations & piles
  Physical foundation piles, concrete slab, or sub-floor structure at the site
- × Retaining walls
  Any retaining walls, cut-and-fill works, or erosion control required on site
- × Delivery & transportation
  Transportation of the home to the site and any cranage, machinery, or access works required for placement

OUTDOOR & EXTERIOR

× Decks, verandahs & outdoor stairs
External decks, verandahs, pergolas, and entry stairs unless noted in inclusions

× Driveway & paths
Driveway, footpaths, concrete pads, and hardstanding areas

× Landscaping & gardens
Lawns, planting, garden beds, topsoil, bark, irrigation, and any other landscaping works

× Fencing & gates
Boundary or privacy fencing, garden gates, and associated posts or foundations

× Garage, carport & shed
Standalone garages, carports, or sheds

× Letterbox
Letterbox and house number signage

GENERAL

× Any item not listed in the Inclusions Schedule
Only items specifically listed in your signed Inclusions Schedule are covered. If you are unsure whether something is included, please ask before signing

× Plan customisation
Any changes or upgrades to the standard plan that are significant enough to require a custom concept plan

× Material upgrades & variations
Any upgrade to a standard specification (e.g., premium cladding, stone benchtops, upgraded appliances) is available at an additional cost and must be agreed in writing

× Damage caused by third parties or site conditions
Damage resulting from site conditions, weather events, or third-party works after delivery is not covered

YOUR KITSET, YOUR WAY
